Screen Display

- Lock Entry Fields
 - No Wrap
 - Yellow Space is added to right of fields/labels (not in the middle or left)
- Grids set to 100% of full page
- Add to List and Clear set to top right most of grid
- Subheader titles (if needed) are bold
- No borders on sections/tables

TOP PIECE

- The tab order should default as top to bottom left to right unless otherwise stated.

II. JavaScript validations and behaviors:

- Prefix the “Last Modified” label with the Screen name. So if on the Tests screen, the label will be “Tests Last Modified”. If on the Resolution screen, the label will be “Resolution Last Modified”, and so on...
- When the screen initially displays, ensure it selects the Latest Jurisdiction Type and Jurisdiction when there is just one and when there are multiple Counted Jurisdictions.

III. Coding

- Drop down lists
 - **QA COMPLETE** (SURVWEB_LOOKUP_NAME table LIST_NAME: QA COMPLETE CASE)
 - **JURISDICTION** (LOOKUP.LU_LOOKUPS table TYPE = 5705)
 - **JURISDICTION TYPE** (SURVWEB_LOOKUP_NAME table LIST_NAME: JURISDICTION TYPE)
- This page displays at the top of the screen below the screen title and above the following Case pages- but not in Add mode on the Add Case screen:
 - Case Management
 - Case Diagnostics
 - Resolution
 - List Condition Notes

IV. Display grid links NA

V. Error Messages

- Display in the order of the fields on the screen when the **Save** button.
 - Jurisdiction is required
 - Jurisdiction Type is required
 - QA Complete is required.

VI. Buttons & Links

- **Update** Button displays for QA and Admin Users.
- Validation to display messages to the user will not be performed on **Cancel**
- When click the **Update** button on this top piece, change this top piece to Update mode so that the user can make changes. Start the cursor on the first entry field on this top piece.
- When click the **Save** button on this top piece, validate the entry fields on this top piece and their combinations. If fails validation, display the error messages above the entry fields in the applicable section. If passes validation, then save the changes to the top piece to the database and change this top piece to View mode.

Notes:

1. In Update mode if the Jurisdiction is changed, then also save a note of “Jurisdiction has been changed by USERID from ABC to XYZ on DATE”. This note should have a note type of “CASE”. These notes should always display in the Notes list on the Case Management screen and the user should not be able to remove them.

TOP PIECE

- When click the **Cancel** button on this top piece, change this top piece to View mode so that the user cannot make changes and reset the entry fields back to the values in the database.
- When click the **Save** button on one of the Condition/Disease pages, first check to see if this top piece is in Update mode. If so, then display “Information has been entered, click Save or Undo the information” in this section and do not save. If not, then continue with the save routine for the other page.
- When click **Cancel** button on one of the Condition/Disease pages, nothing should happen in this section.
